

“Joy, feeling one's own value, being appreciated and loved by others, feeling useful and capable of production are all factors of enormous value for the human soul..”

Dr. Maria Montessori

At SMS, we fuse Montessori Methods of teaching with an enriched STREAM education to raise a well-rounded child, who is prepared to extend their academic steps further and to be competent in today's increasingly science and technology driven world, which will lead to a fulfilling, successful and happy life.

- **Montessori teaching method is our core believe** - allow children to learn in the most natural way
 - **Education tailored for Individual:**

Every child is respected through the lens of Dr. Montessori's Planes of Development. Child progresses according to their own course. Each mastered skills builds confidence and independence.
 - **Education for Life:**

Montessori curriculum covers five key areas that are practical life, sensorial, mathematics, language, and culture. These curriculum foster complete development of children. They learn both school and real life skills.
 - **Learning through all five senses:**

Through carefully prepared learning environment, Montessori method nurture curiosity, creativity; encourage freedom for choice and pursuing of knowledge; cultivate collaboration, problem solving. Child obtains skill sets they need for academics and career.
 - **Education for the society:**

That character building from the Grace and Courtesy curriculum teaches children for honesty, kindness, respect others, responsibility of the community

and the world. The social skills obtained allow children able to convey their ideas and adapt to changing world. The high self-esteem, confidence and perseverance build through freedom of learning and trial and error to master the skills set enable them to stand by their believes and contribute to the society, making the world a better place to live for themselves and the generations to come.

- **STREAM is the complemental elements for academic excellence.**

- **STREAM** stands for Science, Technology, Reading/wRiting, Engineering, Art and Mathematics — subjects are complementary. The integration of multi-disciplinary curriculum teach a well rounded

- **Education adapted for our rapid changing World**

In today's rapidly changing and complex world, the integration of Montessori platform with STREAM Academic curricular prepares the child. They build a solid foundation for our children to become leaders in the increasing globalization.

- **Education geared for the Future**

Early exposure of STREAM through spontaneous learning, allow children acquiring skill set needed for the future, a world demands science, technology, and engineering in all aspects of life.

- **Classroom rotation**

Children are exposed to diverse topics covering from the sky to the deep sea; from the universe to the living cell; arts, music and much more. Each room has its own theme, such as

- Infant Room: Animal, plant, flower
- Toddler Room: Natural and space
- Preschool 1: Montessori
- Preschool 2: Home art include cook, garden, sewing, crochet
- Explore Room: Host dance, music, gym fun, drama, concert
- Library and computer corner

- STREAM Room focus on science and technology
- DIY Room: Arts and Crafts

- **Extra curriculum**

Our rich extra curriculums allow children to further explore the world around them, discover their interests, and grow stronger every day, physically, socially, mentally and spiritually.

- Into the Woods let them get closer to nature;
- Chinese language introduced in an immersion way;
- Drama let them be creative and found their artistic side;
- Deep Breath and Calm teach them to recognize their emotions and learn to regulate it;
- Physical education ensures children growth at proper developmental stage.

- **Nutritious Meals**

Nutritious meals are freshly made in our kitchen and are complimentary from the school. Early morning and late afternoon snacks get children fed when parents don't have time to do so. As soon as infants start solid food, they would be put into our nutritious meal program.

- **Facility ensuring safe and learning environment:**

- **Indoor:**

Montessori classrooms are orderly, peaceful, happy places designed to meet the developmental needs of each child in every stage of life. They contain many sections for children to learn and play, in many different ways: by themselves, in pairs, in small groups, in large groups, inside, outside, at tables, on the floor. We also have Discover, DIY, STREAM and Home Art room, all of which gear to provide your child a diverse learning environment. Indoor play structures give children additional way to get moving to release energy as well as to build gross motor skills, and social skills.

- **Outdoor:**

Outdoor classes and outdoor plays offer an advantage that indoor classrooms can't match. We have outdoor classes and Into the Woods programs for kids to learn science the natural way.

Our large outdoor playground offer children lots of fun in the Sun and fresh air, a recipe for a happy and healthy child.

- **Security check in/out:**

Safety is our number one priority. Our check in system require both Biometric sign-in and paper sign-in, thus we have a good record of who come into our facility at what time, conducting what business.
