Ms. Liu's Creative Art Class | Enrollment Open

With a lifelong foundation in the arts and comprehensive, professional training in the United States, Ms. Liu brings together the best of Eastern and Western art education. With many years of experience teaching children, she is dedicated to nurturing each child's artistic voice through thoughtful, developmentally appropriate instruction..

This program is grounded in the **Montessori philosophy**—honoring the child, following the child, and fostering creativity while building strong artistic skills. Children are encouraged to explore, imagine, and express themselves authentically. Copying and rote imitation are intentionally avoided; instead, students learn to translate their own emotions, ideas, and imagination into meaningful artwork. Every child is supported at their own individual pace.

✨ Program Highlights

- Small-group instruction for personalized guidance
- Classes thoughtfully grouped by age and skill level
- A balanced approach to **creative exploration and technical mastery**
- Emphasis on confidence, aesthetic sensibility, and independent thinking

📖 Course Levels:

Level 1 | Foundation – Creativity development + 3D pop-up art & hands-on projects

Level 2 | Intermediate – Drawing techniques + art appreciation + media exploration

Level 3 | Advanced – Professional training in sketching, colored pencil, watercolor, and acrylic

🎓 College art portfolio preparation is available
